SUMMARY

Electronics and Telecommunication Engineering undergraduate with a strong foundation in Java, C, and C++. Hands-on experience in Data Structures, Algorithms, Object-Oriented Programming, and problem-solving. Seeking a Software Engineer Intern or Fresher role to apply technical skills in real-world projects.

EDUCATION

Bachelor of Engineering (B.E) – Electronics & Telecommunication Engineering
Pune Vidyarthi Griha's College of Engineering, Nashik
2023 – 2027 | **CGPA: 9.73**

Senior Secondary (XII) – Science | Maharashtra State Board
2021 – 2023 | **Percentages:81%**

Secondary (X) | Maharashtra State Board
2020 | **Percentages:91.6%**

TECHNICAL SKILLS

Languages: Java, C, C++
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming, DBMS, Computer Networks
Web Technologies: HTML, CSS, JavaScript
Cloud: AWS (Cloud Foundations)

PROJECT EXPERIENCE

Library Management System (Jul 2025 – Nov 2025)
• Designed and implemented a Java-based application using OOP principles
• Implemented CRUD operations with issue/return and fine calculation logic
• Integrated MySQL for persistent data storage

Support Website for Deaf and Dumb People (Jan 2024 – Apr 2024)
• Built an accessible web application focused on inclusive communication
• Implemented simple and user-friendly UI to improve usability

Footstep Power Generation System (Jan 2025 – Apr 2025)
• Engineered a prototype using Arduino Uno and piezo sensors to convert kinetic energy into electrical energy
• Targeted applications for smart cities and renewable energy solutions

---

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations
Infosys Springboard – Pragati Path Cohort 4
Talent Battle Training Program – C, C++, Java & DSA
